Position of Responsibility

Here are the Following Positions of Responsibilities I've been a part of,

Internship Project Details :

MERN STACK Developer At MindBrain Innovation	Developed an AI Resume Analyzer using the MERN Stack with authentication, resume analysis, and ATS score generation.
AIML intern At CTTC,Bhubaneswar	Built and evaluated machine learning models using Python and OpenCV while gaining hands-on experience in data preprocessing and model development.
Web Development intern At CTTC,Bhubaneswar	Developed responsive web applications using HTML, CSS, and JavaScript and participated in debugging and UI improvements.

Project Details :

Name of the Project	AI Resume Analysis
Tech-stack used	MERN Stack
Description	Developed an AI-powered Resume Analyzer using the MERN Stack to analyze resumes, provide ATS compatibility scores, identify missing keywords, and suggest improvements through a user-friendly interface.

Name of the Project	Face Detection using OpenCV
Language used	Python
Description	Developed a real-time face detection system using Python and OpenCV. The project detects multiple faces in images highlights them with bounding boxes, and serves as a foundation for security and attendance applications.

Name of the Project	Road Safety Awareness Website
Tech-Stack used	Html,Css,Javascript
Description	An informative platform created with HTML, CSS, and JavaScript to educate users about safe driving practices, traffic rules, and accident prevention. The website features a responsive design and interactive elements like IoT projects and safety tips, promoting road safety and encouraging responsible driving.

Name of the Project	Portfolio
Tech-Stack used	Html,CSS,Javascript
Description	A website that showcases my web development skills and projects, created using HTML, CSS, and JavaScript. It features a clean, responsive design with interactive elements that highlight my work, including web applications, design projects, and technical achievements.

Personal Details :
